## RESOLUTION OF BIG SKY COUNTY WATER & SEWER DISTRICT NO. 363, MONTANA APPROVING INCREASES TO RATES FOR THE WATER AND SEWER SYSTEMS

### RECITALS

WHEREAS, Big Sky County Water & Sewer District No. 363, Montana (the "District") has been duly created pursuant to Montana Code Annotated, Title 7, Chapter 13, Parts 22 and 23, and the District currently operates a water system and a sewer system; and

WHEREAS, the Board of Directors of the District (the "Board") has determined that it is necessary to increase the rates of the District's sewer system (the "Sewer System") and the District's water system (the "Water System") to collect sufficient revenues to repay outstanding bonds payable from the revenues of the Sewer System and the Water System (together, the "Systems"), pay costs associated with the operation and maintenance of the Systems, and establish appropriate reserves; and

WHEREAS, as described in Section 7-13-2275, M.C.A., the rate increases approved below represent a cumulative rate increase of less than or equal to 5% for a 12-month period.

NOW, THEREFORE, BE IT RESOLVED by the Board as follows:

Section 1. <u>Modifications to Wastewater and Water User Charges and Connection Fees.</u> The Board desires to modify the basis on which water and sewer charges are imposed and implement a rate increase for the use and availability of the Wstewater and Water Systems as set forth on Exhibit A.

Section 2. <u>Current Wastewater and Water User Charges and Connection Fees</u>. The District currently charges for the use and availability of the Sewer and Water Systems as shown on Exhibit A which went into effect on September 21, 2021 and amended February 15, 2022 to create a new category for Work Force Housing and Accessory Dwelling Unit developments.

Section 3. <u>Rate Increases</u>. Effective as of July 1, 2022, the Board approves increasing both the wastewater and water user charges by 5% as shown on Exhibit A.

Section 4. <u>Amount of Increases</u>. The amount of the increases in the water and sewer rates and charges approved by the Board pursuant to this resolution is no more than 5% over existing water and sewer rates and charges.

Section 5. <u>Determination of Annual Budget for Systems.</u> At least once each year the Board of the District shall determine the amount of money needed to pay the costs of the System including but not limited to: (a) the payment of the reasonable expense of operation and maintenance of the Systems; (b) administration of the Systems; (c) the payment of principal and interest on any bonded or other indebtedness of the Systems; and (d) the establishment or maintenance of any required reserves, including reserves needed for expenditures for depreciation and replacement of facilities, as may be determined necessary from time to time by the Board or as covenanted in the ordinance or resolution authorizing any outstanding bonds of the Systems. Based on the annual needs of the Systems, the Board will establish monthly charges for the use of the Systems. Section 6. <u>Further Rate Increases.</u> Subsequent adjustment to the rates and charges for the use and availability of the Systems will be made by a resolution of the Board of Directors duly adopted, if required, after a public hearing, with notice given as required by law.

Passed and approved this <u>21st</u> day of <u>June</u>, 20 <u>22</u>.

Brian Wheeler President, Board of Directors
