RESOLUTION:

That on December 18, 1992, the Board of Trustees, Rural Improvement District #305 of Big Sky, Montana, created by Resolution of the Board a revised schedule of user fees, as originally adopted through a 1981 Resolution of the Board and revised through a Resolution of June 14, 1989. These Resolutions were for developments not included in the original Rural Improvement District #305, Gallatin and Madison Counties.

WHEREAS, the existing wastewater collection and treatment facilities were designed and constructed to serve a well defined population and service area.

WHEREAS, these fees would be invested and held for payment for replacements, renewals, upgrades and expansion needs at the plant.

WHEREAS, these fees will be evaluated periodically to keep pace with inflation.

NOW, BE IT FURTHER RESOLVED that after January 1, 1993, all home, condominium and commercial developments hooking into the system must pay a fee in the amount of \$2500, per single family equivalent (SFE), based on the single family equivalent (SFE) formula, as delineated in the Kerin & Associates "Sewer Rate Study" for RID #305, August 1990.
